

Future of VoIP II – Panel discussion

Michiel Leenaars, David Bryan, Antoin Verschuren, Hendrik Rood, Ytsen Kooistra, Olaf Kolkman, moderated by Adrian Georgescu

What's hot	What's not	Still to be decided
Fixed-mobile convergence	Full IMS and IMS only phones	User ENUM
Plain VoIP	UMA	Dual-mode phones
Handsets with naked SIP (IETF)	Municipal Wifi	Security/Identity products
Wireless broadband at home (WiFi)	Push to talk services	Mobile TV
Voice and classic SMS	Blocking of VoIP	Presence/Mobile IM
Customizable phones (colors, ring tones)	MMS	Voice/Web integration
FON WiFi overlays	Pricing 3G data-bundles	Quad play
VoIP peering and infrastructure ENUM	Login hurdles to public WiFi	Low cost mobile calls at home
		Hosted IP centrex solutions
		Operator-less P2P
